A SHORT HISTORY OF TWENTIETH CENTURY OVERDATES

by Ken Bressett, LM 369

Since publication of my article on the newly discovered 1901S 1 over 0 \$5 gold piece in the April 30, 1974, issue of *Numismatic News* and May 1, 1974, issue of *Coin World*, I have been contacted by many collectors who have requested further information about twentieth century United States overdate coins. Publicizing the new variety has achieved the expected results and several additional specimens have already been discovered by sharp-eyed collectors and dealers.

Some of these pieces turned up at conventions and, not too surprisingly, they were purchased as normal 1901S half eagles. This would indicate that there may be several more specimens waiting to be discovered making the challenge to look for them all the more exciting. It was pleasing to see the collector interest in this new variety and to reinforce my conviction that the piece deserved to be listed in the 1975

28th edition of the *Guide Book of United States Coins*. It does not carry a retail estimate, however, because a stable value cannot yet be placed on this variety. Known sales have ranged from \$365 to \$2,995 depending upon condition. Very few uncirculated specimens have so far been found. Future editions of the Red Book will evaluate this coin when firm market values can be established.

The 1901S 1 over 0 half eagle was discovered and identified by Ted F. Clark in February, 1973, and it is amazing that so obvious an overdate had gone undetected for over seventy years. One collector asked when each of the other twentieth century United States overdates was first discovered and publicized. This seemingly basic question is much more difficult to answer than one might expect. In the 1930's and early 40's much less attention was given to varieties of this nature; numismatic communication was also much more infrequent than today where we have a vast array of excellent monthly and weekly coin publications.

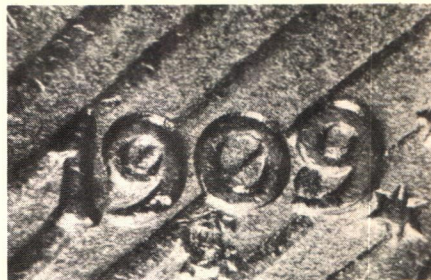

It may well be impossible to ever determine precisely when each of the known twentieth century United States overdate coins was first discovered, and even more difficult to determine who first identified them. To help clarify the picture I have compiled a listing of early known sources which did identify the various overdates in published form.

Fig. 1: The recent discovery of this variety has reopened the question of why twentieth century overdate dies were produced in an era when modern production methods should have eliminated the practice. On this die the original 1900 date has been partially effaced to eliminate evidence of double hubbing.

1909 9 over 8 Double Eagle

The 1909 9 over 8 \$20 gold piece was first discovered and published by Edgar H. Adams in a short notice in *The Numismatist*, May-June, 1910, page 157 (reprinted in *The Numismatist*, February, 1945, page 151), yet the existence of this variety was apparently ignored by most collectors for many years. In the May--June, 1943 issue of *The Coin Collector's Journal*, Abe Kosoff again described this variety and stated that five specimens were accounted for. A photograph of the piece was shown for the first time. In 1944 the 1909 9 over 8 double eagle was added to Wayte Raymond's *Standard Catalogue of United States Coins*. Starting in 1945 it was included in Whitman's *Handbook of United States Coins* and has been listed in every edition of the *Guide Book of United States Coins* since its inception in 1946, and pictured since the 1972 edition.

Throughout the years collectors have come to know that this overdate variety occurs almost as frequently as the normal date coin; its additional value is mainly in its desirability.

1918D 8 over 7 Five Cents

The 1918D 8 over 7 five cent piece was apparently known by collectors for some time before its existence was publicized in print. It was listed in an article by Lee F. Hewitt in the

Fig. 3: High grade specimens of this overdate show a nearly full 7 beneath the 8 as a result of the die being given one blow with a 1917 hub and then another with a 1918 hub. In this same year an overdate quarter dollar die was sent to the San Francisco mint. Some of the five centavos coins made at Philadelphia in 1918 and 1919 show similar features.

Deceptive overdate nickels exist. Genuine coins have the obverse/reverse alignment shifted about five degrees from normal. **WILLIAM FIVAZ PHOTO**

Numismatic Scrapbook, Vol. 1, Number 3, May 1935, page 38. In this early article on overdate coins, the nickel was erroneously listed as "1917 over 1916" but was corrected in the following issue.

In 1936 the variety was included in Charles E. Green's *Mint Record and Type Table of United States Coins* with the notation that three specimens were known. The piece was not in Green's 1934 listing which would indicate that it must have been made known to him in late 1934 or early 1935. The first edition of Whitman's *Handbook of United States Coins* (1942) included the 1918D 8 over 7 nickel and repeated Green's notation that three specimens were known. James B. Johnson's 1943 catalog, *Auction Prices: United States Coins* showed nominal values for several specimens which had been sold in the 1942-44 period.

This variety was also mentioned in the *Numismatic Scrapbook Magazine*, December 1938, page 492, in a note by Lee Hewitt who indicated that some collectors were still skeptical about the piece. In 1943 articles in the *Scrapbook*, *Coin Collector's Journal* and Stack's *Numismatic Review* told about the overdate. Wayte Raymond began including it in the *Standard Catalogue* of 1944, and it has appeared in every issue of the *Red Book*.

1918S 8 over 7 Quarter

The 1918S 8 over 7 quarter first appeared at an auction in the Barney Bluestone Sale of December 4, 1937. It was listed as Lot No. 741 and brought \$26.25 in brilliant uncirculated condition. The cataloger expressed doubts that more than one or two other specimens were known.

In 1938 the overdate quarter next appeared in a catalog listing when it was shown in the ninth edition of R. A. Wilson's *American Catalog of All United States Coins*. The first published article concerning this variety was by Joseph Silverman in the *Numismatic Scrapbook Magazine*, December 1938, page 498.

Book began listing the variety in 1942. By 1943 articles mentioning this coin were published in the *Scrapbook* (May), *Numismatic Review* (June), and the May-June *Coin Collector's Journal* which also included an illustration. J. B. Johnson listed the piece in his 1943 catalog of *Auction Prices* and recorded several sales. The variety has been included in all editions of the Red Book.

Because this quarter and the 1918 nickel overdate were so long in being discovered, they are seldom found in perfect uncirculated condition and are quite scarce in any high grade. Low grade pieces often do not show the date clearly enough for identification and thus, these pieces continue to be scarce and expensive with little prospect of additional new specimens turning up in the future.

LEE HEWITT PHOTO

1942 42 over 41 Dime

The 1942 42 over 41 dime was first published in the *Numismatic Scrapbook Magazine* of March, 1943. Arnold Cohn is given credit for discovering this variety. After Cohn's early report of finding this overdate, he sent the coin to Lee Hewitt who stated in the April *Scrapbook* that he would soon photograph and publish the discovery. His full article appeared in the May issue of the *Scrapbook* on page 249 with a convincing illustration.

A similar article by William H. Arthur was published in the *Numismatic Review*, Vol. 1, No. 1, June 1943. The *Review's* editor added a note

that after accepting the article he learned that Cohn's story was to be released in the April issue of the *Numismatic Scrapbook*.

This variety became well known and eagerly sought by 1944 when several sales were recorded in Johnson's *Auction Prices*. It was first listed in the *Standard Catalogue* and the *Blue Book* in 1945, and became the subject of an article in the August, 1946, *Numismatist*, page 888, which included an explanation of the overdate by Nellie Tayloe Ross, Director of the Mint. This article is significant in that it is the first time that the mint officially acknowledge the existence of such a coin and attempted to explain the reason for overdating of 20th century dies.

The Director's explanation, however, is difficult to reconcile with numismatic evidence. The 1942 overdate was not an isolated mistake caused by mis-matching two differently dated hubs. In fact, two dies were overdated that year. Both show signs of partial erasure of the underdate, and the die that was sent to Denver was almost successfully repaired. The accident could not have gone undetected, and the decision to use these dies must have been deliberate.

1942D 42 over 41 Dime

For some reason the 1942D 42 over 41 dime was generally ignored by collectors until recently despite the fact that its existence has been known for many years. This variety is slightly scarcer than its Philadelphia counterpart in circulated condition, and much rarer in full uncirculated.

Because the underdigit 1 was partially effaced from the die, its appearance is much less dramatic, thus this variety seems to have had less appeal to collectors. Lack of proper publicity has probably contributed to its being ignored for so long.

It is interesting to note that the doubling on the leg of the 4 is opposite to that of the Philadelphia overdate, though just as visual. This doubling

should make it easy for the collector to identify the variety even with low magnification.

1942D Ten Cents
1942 over 1941

Fig. 6: Double hubbing of this die shows shift of the 4 to the left of the predominant figure, rather than to the right as on the Philadelphia coin. The original figure 1 under 2 of the date has been partially effaced. Like many of its brothers, this die was sent to a branch mint for use rather than being destroyed.

TED CLARK PHOTO

Its first catalog listing appeared in the 1963 2nd edition of Frank G. Spadone's *Major Variety and Oddity Guide*. Later the coin was mentioned in *Coin World* "Collectors' Clearinghouse," August 30, 1963, where its authenticity was questioned. This same publication, in the August 10, 1966 edition, presented a full study of the Denver overdate dime with the conclusion that it was a true overdate, and credited James Greeneich with being the first to inquire about the piece.

A superbly detailed analysis of this variety was given in Frank S. Robinson's article in the *Numismatic Scrapbook Magazine*, August and September 1970, which included an excellent photograph.

As a result of increased collector interest in this variety, the Denver overdate dime was first listed in Whit-

man's *Guide Book of United States Coins* in 1972 and in the *Handbook* of 1974.

Conclusion

These twentieth century overdates, like many other unusual varieties of United States coins, were probably all known to a small group of collectors prior to formal publication. Such procedure is generally necessary to assure that the discovery specimen is

not an isolated oddity, and to confirm that it is a product of a special die which would produce other coins with the same features. After passing the tests of time, comparison, and popularity, major varieties of this nature deserve collector recognition and inclusion in catalogs, with each piece heralding a new chapter in the constantly changing history of American numismatics.

CENTURY OLD NOTES

A BOY found a gold dollar on an ant hill in the old commissary building at Fort Fillmore, New Mexico, a short time since. The following day three dollars were found in the same place. They had evidently been brought up by the ants. Search was made, and a small wooden box, badly decayed, containing one hundred and eighty gold dollars was found about a foot below the surface." — *American Journal of Numismatics*, October, 1874.

FROM YOUR PRESIDENT

VIRGINIA CULVER

As you read this issue of *The Numismatist* our 83rd Anniversary Convention will be history and but a happy memory. Florida convention workers can relax and enjoy the well-deserved plaudits. As we grow and welcome more and more members and friends at our annual conclave; plan more and more activities; the duties of the general chairman, his chairman and committees become more exacting, more time consuming, and more laborious. It is no easy task to plan activities and functions for over 10,000 people and at the same time to guard against any unforeseen contingency. All Florida chairmen, their committees, and all workers deserve the richest thanks for their efforts on behalf of our association. Personally, my deepest gratitude for all of your thoughtfulness, the special honor, and the dedication of the convention program. Everyone has made my first year an unforgettable one, and a richly rewarding one for the ANA.

The 6th Annual ANA Summer Seminar is also history. It will be recorded as one of the finest to date. Our executive director, Ed Rochette, has been responsible for this educational project since its inception and much praise is due for his efforts. We are indeed grateful to the instructors who give freely of their time and talents and to those companies who graciously loan and finance their staff. Whitman Publishing Company shared Ken Bressett and the Franklin Mint shared Harry Adams. Two dealers took time from their personal business to teach, Joel Malter and Richard Long, while our ANACS director and his assistant came from Washington to handle the course which they do every day. We were most honored to have Howard Johnson, recently retired from the United States Mint, as a special instructor. Arthur M. Fitts III of Headquarters added his talents as an instructor.

To those fourteen who sponsored a young numismatist scholarship, your money was well spent and deeply appreciated. It was especially gratifying to see the youth participate. They were knowledgeable, stimulating, enthusiastic, and fun! Their interest was invigorating. The establishment of our Young Numismatist Scholarship Endowment Fund for the ANA Summer Seminar will allow anyone to participate in this most worthwhile project whether you are able to completely or partially sponsor one student. All interest from this endowment fund will be used in this way. Hopefully, it will build to the extent that we can sponsor more and more youth each year. *Reservations for 1975 will be accepted after January 1st of next year.* Several new courses are in the planning stage for 1975.

Our loyal Headquarters staff must be congratulated for the extra time they spent entertaining visitors, answering questions . . . helping in every way possible to make each student's week in Colorado Springs the very best!

Virginia

Howard F. Johnson, consultant to the Director of the United States Mint, and President Culver are all smiles while awaiting seminar tour buses to the Denver Mint and Cripple Creek.

Over five million pieces of this type were coined, but they were not released to circulation. Instead, they were mostly melted in the latter part of the 1890's during the great recoinages. The surviving specimens were no doubt passed out by the czar and the Grand Duke Georgii Mikhailovitch.

This type was restruck as late as 1921 by the Far Eastern Republic. It should be remembered that by the monetary law of 1897 this piece was an imperial. It is identical in all measures except design to the imperials (10 Roubles) of 1886-1894.

The pieces of 1908 are said to have been all struck from the gold of one large nugget found in Siberia. It is singularly curious that the 1908 was struck with the reverse type of 1896 which became outmoded in January, 1897. No. 430 is technically a medal.

225 pieces were struck. Of these, 200 were personally distributed by Czar Nicholas II while the remaining twenty-five were given to Grand Duke Georgii Mikhailovitch. They were struck to show the close relationship of the Russian monetary system to that of the Latin Monetary Union and, in particular, France. (Finland, under czarist rule, was part of the Latin Monetary Union.) The coin also served as a symbol of Russia's full-fledged entry into the European community of nations.

Fiscal Year Coinage Statistics, 1886-1911

Note: It is certain that from 1886 all known coinage statistics are of *fiscal* years. Until 1899 the financial year ended on August 1 but in that year it was changed to October 1. It is possible (and even likely) that the fiscal year concept for the mint accounts actually began in 1878. Thus, any coinage figure for 1878 through 1911 must be held suspect for the gold coinage. The figures for 1909-1911 and the Imperial and half Imperial of 1897 are believed to be accurate.

SPECIAL NOTE ON MINTAGE FIGURES

Extreme care must be exercised in using the mintage figures of Russia to show rarity of a particular coin. It is known that in many cases the mint authorities kept the old dies on hand and would strike pieces for collectors. (This should not be confused with the novodels, ordinarily struck from new dies specially made for that purpose.) A perfect example of this discussion is the 3 rouble/20 zlotych piece of 1841; the official mint report says only one was struck. Yet in 1904 the rarity tables of Giel-Ilyin show clearly that four or five pieces were then known!

Fine Gold Value of the Rouble

Between 1718 and 1897 the fine gold content of the rouble varied considerably. The following table gives the dates in use, the weight of pure gold, and the value in terms of the United States gold dollar of 1837-1933.

| Period | Weight | Value |
|-----------|------------|---------|
| 1718-1728 | 1.60 grams | \$1.060 |
| 1755-1763 | 1.53 grams | 1.015 |
| 1764-1885 | 1.20 grams | .797 |
| 1886-1897 | 1.16 grams | .772 |
| 1897-1925 | .77 gram | .514 |

Rough values may be calculated for the other denominations from the above table.

Value of Bulk Russian Gold Coin

At the present time (1973) there is a considerable market in 5 rouble pieces of about 1898-1904. There is a lesser interest, due to smaller quantities available, of the other values struck between 1897 and 1911. The table below shows the value, at various prices per ounce in dollars, of the 5 and 10 rouble coins.

| Denomination | \$20.67 | \$35.00 | \$50.00 | \$80.00 | \$120.00 | \$140.00 |
|-------------------|---------|---------|---------|---------|----------|----------|
| 5 Roubles | 2.57 | 4.35 | 6.21 | 9.94 | 14.90 | 17.40 |
| 10 Roubles | 5.14 | 8.69 | 12.40 | 19.90 | 29.80 | 34.80 |

The author presumes that the large quantities of Russian gold coming onto the market are from European banks, especially from Switzerland.

Value of the Ducat

The ducat has always had a floating value in the currencies of the world and Russia was no exception. After the ducat was first issued on a semi-regular basis in 1701, the czarist authorities had to issue a series of decrees over the years constantly resetting the value in terms of the rouble. The following table is not a list of the decree values, but rather an attempt to show the actual gold value of the ducat at the time of striking. It is believed that the imitation Dutch ducats struck at St. Petersburg after 1797 were of the same weight and fineness as those struck by Paul I in 1796-1797. Such pieces were struck until 1868, so it is reasonable to assume that they were still in limited circulation after 1885. The 1897 value is added for comparison purposes:

| Dates | Pure Gold | Value in Roubles |
|-----------|------------|----------------------|
| 1701-1711 | 3.36 grams | 2 roubles 10 kopecks |
| 1712-1729 | 3.40 grams | 2 roubles 16 kopecks |
| 1730-1748 | 3.36 grams | 2 roubles 10 kopecks |
| 1749-1756 | 3.42 grams | 2 roubles 14 kopecks |
| 1757-1763 | 3.40 grams | 2 roubles 22 kopecks |
| 1764-1885 | 3.44 grams | 2 roubles 87 kopecks |
| 1886-1897 | 3.44 grams | 2 roubles 97 kopecks |
| 1897 | 3.44 grams | 4 roubles 47 kopecks |

The student of this series will notice that the 3 rouble coin, introduced in 1869 and meant to replace the Dutch pieces, was very close in value to the imitation coin. The imitation pieces were so popular in certain frontier areas that in times of shortage the counterfeits were counterfeited. Some authors have arbitrarily assigned values of three roubles to the early ducats.

Severin Conversion Table, 1701-1794

Many numismatists reading this catalogue will own or have ready access to *Gold and Platinum Coinage of Imperial Russia, 1701-1911* by H. M. Severin (New York, 1958). The following is a conversion table from Severin's numbering system to this catalogue. Numbers from Severin missing from this table fall into one of three categories: a) non-existent, b) medallie, or c) of uncertain authenticity. Lists of the last three categories will be found at the end of the first table. In all cases the Severin number comes first.

VALUES

Prices of the coins covered in this work in the volatile market of the 1960's and early 1970's become outdated within a few years. Therefore, it is suggested that the collector consult one of the following to aid him in determining values:

Right column, next to last paragraph, last line: *St. Michael's* instead of *Antchikov*.

Add to beginning of paragraph: *That such a name was even contemplated is due to the revival of interest in the ancient Russian states during the reign of Nicholas II. At one time it was even suggested that the court costumes of the early Romanovs be introduced and made compulsory.*

In late 1896 the decision was finally made to raise the value of gold (i. e. devaluation) to correspond with current market values. As five roubles of gold were worth exactly seven-and-one-half roubles in paper at that time, it was decided to increase the value of the gold coins by exactly fifty per cent.

FEATURING FAKES

Before I start on fakes to feature in this issue, I want to give here my stock answer which I send to the three to five inquiries which for several years I've received each week.

The question: "What's the best microscope to use for coin examination?"

The answer: While I haven't used every make of 'scope, yet I have compared probably a dozen makes. In my book there are two top-quality stereoscopic microscopes, the Nikon and the Zeiss. I've used them both, I recommend those two.

Whichever 'scope you get, insist on it being a 30-X . . . not 20-X, not 40-X, but 30-X. That's the best magnification for coin examination. Nikon makes two models in 30-X, one for use on a low table, such as a card table, and that's Model No. SM-6. For use on a higher, lab table, Model No. SM-5.

Both Zeiss and Nikon also make a zoom, as is the Nikon I use, but very rarely do I use it at anything other than at 30-X. If you do buy a zoom, then order it with 2-X objectives, 15-X oculars. That gives you a range from 12-X to 60-X.

Helpful sometimes is a reticle (a scale to measure distances between points on a coin), and the recticle to order is .001" x 200 at 3-X. If you're righthanded, order the reticle placed in your left eyepiece.

There are cheaper 'scopes, but optics happens to be my profession. And I know that, even at the lowest pay scale in the world, nobody can produce a decent set of optics in any 'scope to retail for any \$175.00 or so.

Your purchase of a 'scope is a once-in-a-lifetime investment. If you can't spare the cash now for a topflight 'scope, save up until you do have the cash. You'll never regret it. Proof? Try to buy a secondhand Zeiss or Nikon!

And now to this week's problems.

On my desk is a letter from Chile, which translated into English is a closely typed three-page letter giving names and descriptions of a group of counterfeiters (operating in Chile for the past three years) and of their "sales staff" who spread their wares throughout the rest of the Americas and Spain.

Space limits me only to list here some of the fakes being produced in Chile:

1. Santiago mint, "pillar" dollars, 1760, 1764, 1770, ensayador J.
2. Santiago, 8 reales, 1780, Carlos III.
3. Santiago, 8 reales, 1789, 1790, 1791, Carlos IV, bust of Carlos III.
4. Santiago, 8 reales, 1817, 1818, Fernando VII.
5. Chile countermarked 8 reales. 1818, 1822.
6. Chile 4 escudos, 1769.
7. 1891 Tarapacá peso.
8. Chile peso, 1887, 1891.
9. A 100% concoction, a Chile peso, 1888.
10. Potosí, 8 reales, 1791 (Carlos III bust), and 1810, 11, 12, 1824-J, -25-J.
11. Lima, 8 reales, 1810, second, proper bust of Fernando VII.
12. Chile Coquimbo peso, 1828.
13. Counterfeit crudely punched coins of the provincial series, Valparaíso, Valdivia, Serena, etc.

Added to my friend's list of currently produced counterfeits in Chile, you'll see at the top of the page opposite another counterfeit of Chile.

This is a counterfeit of a genuine 1 peso struck 1865 in the foundry of USA citizen Archibald Brewer, in the city of Copiapo of Chile's State of Atacama.

Chile had been drawn into the war between Peru and Spain; the Spanish fleet had bombarded Valparaíso, was blockading Ingles Bay and the port of Caldera, and coins were in mighty short supply in the inland city of Copiapo. The banks of the town ordered Mr. Brewer to strike one million pesos' worth of 1 peso and 50 centavos. Presumably he did, but he didn't strike this one!

At the top of this page are pictured some 1822 Valdivia pieces... one, two, and eight reales, dated 1822.

These three Valdivia pieces may be perfectly genuine. I just plain don't know. Nor have I found anyone willing to say a definite "Yes" or "No" to my question.

If any reader in the USA is a specialist in Chilean revolutionary coinage, I'll appreciate muchísimo hearing from you.

Shipping a foreign coin out of the USA to an expert in a foreign land, even by registered mail, carries a definite risk. Some countries have laws prohibiting any of that country's coins leaving their country. So, even if the submitted coin arrived safely in the foreign city, it might be seized by their officials at their border on its return trip to the USA.

That's why I'm hopeful there's a Chile specialist in this part of the world who can distinguish between a genuine, crudely made revolutionary coin and an equally crude piece made by a latter-day "mint" in some greedy soul's machine shop!

CHARLES IVES CENTENNIAL MEDAL

Composer Charles Ives, 1874-1954, who is generally regarded as the father of modern music, was honored in the city of his birth, Danbury, Connecticut, on July 4th by a centennial concert and a commemorative collectors' medal issued in his memory.

The concert of Ives' distinctive works was conducted by Leonard Bernstein and Michael Tilson Thomas at the Danbury State Fairgrounds.

A substantial portion of the profit from the public sale of the medal will accrue to nonprofit Charles Ives Centennial, Inc.

Jean Dalrymple, president of Ives organization, persuaded her brother, artist and sculptor Ogden Dalrymple, to prepare a design and execute the models for the Ives medal.

The two inch medals will be struck in gold-on-silver (vermeil), fine silver (.999 fine) and bronze.

The vermeil Charles Ives or Pablo Casals, the latter being a similar medal produced earlier this year by the Medallic Art Company, are available for \$50 each; in fine silver at \$40 and in bronze at \$10. Orders should be sent to Medallic Art Company, Old Ridgebury Road, Danbury, Connecticut 06810. Add 50¢ per medal ordered for postage and handling. Connecticut residents must add sales tax.

The Casals medal is available for immediate delivery, the Ives medal within six weeks.

DIFFERENCES OF OPINION
AS TO THE "DIE STRESS DETECTION" ARTICLE
IN THE NUMISMATIST, JUNE, 1974

by Eric P. Newman

Differences of opinion are healthy and natural in numismatic writing. There have been many articles published in the past which have been accepted as accurate and many which have been challenged. The correct facts and conclusions must always be the goal. No one should be discouraged from numismatic research and writing for fear of being criticized or for taking challengeable positions. Yet, no one should publish material without having made every reasonable attempt to check his statements and opinions with those who are able and willing to review the material. No numismatic editor or committee can be expected to verify every element in a numismatic submittal because much of the subject matter submitted is too specialized. Most editors are primarily seeking reader interest, educational value, clarity of expression and variety of subject matter.

The article in the June, 1974, *Numismatist* entitled "Die Stress Detection," written by Hal Birt, Jr. and Dick Wagner and carrying, "Winning a Battle in the War Against Cast Copies," brought on considerable disagreement. The fact that it stimulated substantial response indicates the large interest in forgery detection education. Virgil Hancock's reply is one of the opposition.

The assertions of Birt and Wagner were only intended to apply to the eighteenth century silver Spanish-American Pillar Dollars. The fine photographs of the flow patterns of the planchet metal in the raised areas near the border of the coins are sharp and convincing. These clearly show the results of metal moving out radially into the die depressions when a coin is struck with reasonable pressure. The same coin struck with somewhat greater pressure would have resulted in all parts being solidly filled in where the die design is recessed and flow patterns would be minimal. Incomplete metal flow is a problem which has confronted coiners from the classical period into the nineteenth century.

Having demonstrated their point as to some genuine Pillar Dollars, Birt and Wagner indicated that cast forgeries do not show these flow patterns. This was generally true in the past because

of the poor quality of much of the casting of counterfeits for circulation. However, as others have pointed out, modern techniques in casting pick up every detail to a high degree and will naturally pick up metal flow patterns along with every other part of the copied coin. The assertions of Birt and Wagner as to falsity therefore should be limited to routine counterfeits for circulation or for tourists and not to forgeries carefully produced for collectors.

If we recognize that modern casting methods produce superb detail including flow patterns, then it is evident how dangerous any generalizations as to the detection of cast forgeries can become. In addition, reproductions struck from forged dies are not included or excluded by Birt and Wagner and this category of forgeries cannot be ignored when overall detection problems are considered as to a series of coins. The variation in the manufacture of genuine pieces and the variation in the manufacture of counterfeits and forgeries leaves the problem of detection very much subject to a piece by piece determination.

It is very important that numismatic terms be properly used in written presentations. The title "Die Stress Detection" could be construed to indicate that deformation of a die in the course of continued use is the cause of

the flow pattern rather than the stress on the metal in the planchet caused by the pressure of coinage with dies. Footnote 4 of the Birt and Wagner article indicates that the authors want students of metallurgy to explain the reason for flow patterns caused by "die stress." This was a point which the authors might have investigated more thoroughly as much about it is known and it has not been neglected in numismatic literature.

Another problem in word meaning involved the use of the terms "edges" and "milled." Birt and Wagner stated that, "Edges, if milled, are a useful starting point for study." They also referred to "raised portions of the edge." The above quoted excerpts are intended to apply to the dentillated or ornamented border of the coin face rather than to the decorated edge. Using the words edge and milled in the manner quoted is unfortunate but not unusual. The edge of a coin is not the border of the face of a coin. The words milled and milling in numismatics have become an inaccurate description of several different processes in coinage or the parts resulting from the

use of one of those processes. The expression Spanish milled dollar, which became a commonly used phrase beginning in the eighteenth century, referred to striking this coin type in a screw press as compared to striking with a hammer. Prior to that the mill of the "mill and screw" coin production process referred to metal strips being thinned in a rolling mill before planchets were cut out for coinage in a screw press. Milling on the edge of a coin is the application of a design to or the upsetting of the edge of a planchet either by a Castaing machine or other mechanism and does not relate to striking. A coin, the edge of which receives a design from a collar die in the course of striking, is not milled. The border dentillation or ornamentation on the face of coins actually has no true relationship to the milling process even if the border of a die is prepared by the use of a nurl or mill (Spanish Pillar Dollar dies were not so prepared). The use of the word milled or milling are so subject to misinterpretation that they are better avoided unless very carefully explained when used.

TOKEN AND MEDAL SOCIETY OFFICIAL MEETING MEDAL

The official 1974 meeting medal of the Token and Medal Society was recently issued at its 14th Annual Convention held in conjunction with the ANA convention in Bal Harbour, Florida. Sculptured by Vincent H. Miller of the Franklin Mint, the obverse of the issue offers a representation of the Spanish explorer, Juan Ponce de Leon; the reverse is the usual rendering of the official TAMS emblem, the same as all other annual issues produced since 1967.

Struck by The Franklin Mint, the medal was issued in three editions, all of the popular dollar size (39 mm), and in proof quality bronze, sterling silver and a special mint finish quality nickel version. The latter editions were made available only to TAMS members. The respective prices are: \$3.50, \$12 and \$3 or \$15 for the pair of bronze and silver.

Quantities struck were limited to the number ordered by TAMS members prior to July 26, 1974. An additional limited quantity may be offered to The Franklin Mint's "Special Commemorative Issues" program subscribers. Additional information can be obtained by writing Clifford Mishler, P. O. Box 316, Iola, WI 54945.

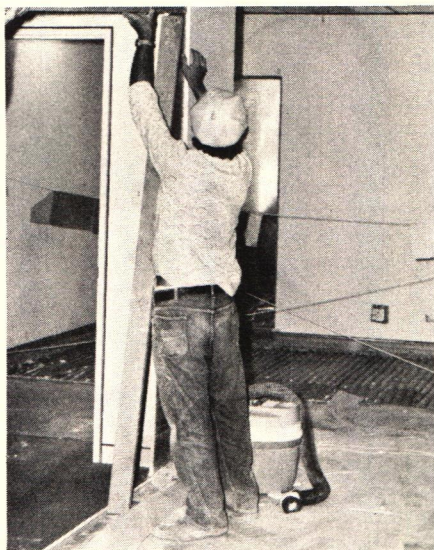

Museum Directions

by Arthur M. Fitts III, Acting Curator

This report is written to the accompaniment of the rip of a carpenter's saw, the hiss of a plumber's lead pot and the staccato of the stonemason's jackhammer. Much of the building is in turmoil as walls, doors, and interior windows come tumbling down. Library shelving has been temporarily relocated and even the bubbling fountain in the foyer of your Headquarters' no longer gurgles its welcome.

Construction for the museum expansion is underway!

While the existing museum facility is closed to the visiting public for the duration of construction, it is comforting to know that interest and support for it do not languish. Significantly, some who view the present facility recognize its short-comings as a numismatic museum. Particular gratitude is extended to Joel Malter who, while conducting his seminar class in the museum, recognized the inadequacy of our display facilities. A quick phone call to Joe Rose of Harmer Rooks Numismatists, Ltd. in New York resulted the following week in

the shipment of twenty-four handsome exhibit cases to Colorado Springs. Each case is self-contained, specifically designed for the display of coins and medals and contains its own lighting, sound and security systems. We are most grateful to Joel Malter, Joe Rose and to Harmer Rooke for their very generous and thoughtful donation.

Did you know that in years' past, life members of the Association had annual dinner get-togethers? The first annual such dinner was held Sunday evening, August 24, 1947, at 9:30 p.m. in the Hotel Statler, Buffalo, New York. Could you identify any attendees of this dinner? Your archives could not answer these questions until Joseph Silverman, who attended these and other events of the 40's, forwarded the appropriate tickets and menu to us. Seemingly insignificant, this type of material is important as we try to assemble as complete a record of the Association's history as is possible. We gratefully acknowledge Mr. Silverman's thoughtfulness.

It is important that your museum house not only the good but also the bad. From time to time individuals including dealers send counterfeit and altered coins and paper money with the expressed interest of getting them off the market. This material covers not only United States, but virtually every other country of the world, and forms an important and valuable reference collection of phony material

Lloyd for his recent gift of thirty cast and struck counterfeits of US coins, and to Tracy Thurber for contributing several counterfeits of ancient coins recently discovered in another museum.

Italy has long been known for its production of coin reproductions and counterfeits. The Paduans of the sixteenth century are recognized for their extremely fine Greek and Roman products, most of which exceeded the quality of the originals. To L. S. For two years now, your museum has been presented impressive and exciting gifts at the closing banquet of the convention. In New Orleans, in

1972, the Segel family gave its magnificent gift of stock, thus initiating the efforts to build the new museum presently underway. In Boston, 1973, the huge reference collection of Mexican Paper Money

Recently the press, radio and television have been making much to-do about copper cents. The surge, earlier this year, of the open market price of copper led to widespread speculation about the future of products largely fabricated of copper. In particular, the future of that single coin which is more plentiful than all others in our country — the copper cent — was subjected to particular scrutiny. Supermarkets, vending machine interests, even youngsters attempting to fill the holes in their Lincoln cent collections were vitally and vocally concerned. While the mint projected shortages of the precious commodity, the GSA sold tons from its stockpiles. Careful consideration was given to the replacement of the copper cent with one produced of another material, especially aluminum.

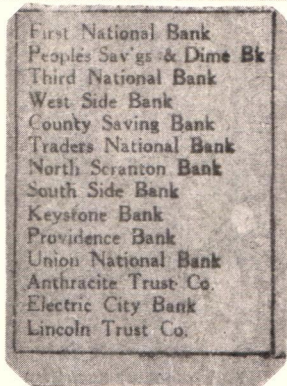

Expedients adopted to cope with localized shortages were as varied as the excuses offered for the very existence of the shortages. Banks offered premiums of 10% to 15% to those who surrendered coppers from their coffee cans and piggy banks. One gentleman is reputed to have trucked in 100,000 of them! Even the Treasury Department got into the act by offering a handsome certificate to those who returned \$25 or more in coppers; later the ante was dropped to \$5. Another inducement was that of a supermarket chain which has a "sweet solution" to the problem: upon request, they would give the shopper their three cent mint for two cents of change. Two cents? Perhaps the reintroduction of the 2c piece would have been more effective. Some restaurants are even known to have elected to round up a bill to the nearest

nickel, certainly a profitable means of reducing demand for the cent.

And, was it not Director of the Mint Mrs. Mary Brooks who aptly pointed out that when Americans are alerted to a possible shortage, they create one?

Here, certainly, was something new. A critical situation without precedent, something new, something to take our minds off of other world and national crises! Not so . . . as revealed by an intriguing piece of cardboard just received by your Association's museum.

While banks and other agencies issue and speculate upon the legality of temporary scrip with which to alleviate the shortage, it was an accomplished fact some sixty-seven years ago. Shown here is a "check" issued in 1917 in the Scranton, Pennsylvania area. The obverse reads:

"This check will be received as deposit for ONE CENT if presented on or before July 1, 1918 at any of the banks of the Scranton Clearing House Association listed on other side." Signed by C. D. Weston, Prest. (sic) of the Scranton Clearing House Association, it is check number 000259. The reverse lists the members of the Association: First National Bank, Peoples Sav'gs & Dime Bank, Third National Bank, West Side Bank, County Savings Bank, Traders National Bank, North Scranton Bank, South Side Bank, Keystone Bank, Providence Bank, Union National Bank, Anthracite Trust Co., Electric City Bank, and Lincoln Trust Co. The checks were printed in strips or rolls by the Globe Ticket Company of Philadelphia.

We are grateful to Mr. H. L. Polzer for this timely and enlightening bit of history. In the inimitable words of another illustrious columnist for *The Numismatist*, "Checks can tell an interesting story."

ANA SUMMER SEMINAR YN SCHOLARSHIPS AWARDED

Fourteen young numismatists were awarded scholarships to ANA's Sixth Annual Summer Seminar held in Colorado Springs.

Recipients of the scholarships (twelve of which were ANA members) were: Kenneth C. Byrne, Jr., South Gate, California; Daniel Felsenthal, Long Beach, California; Douglas Freund, Scottsdale, Arizona; Jeff Garrett, Clearwater, Florida; Robert Gartenberg, Wilmette, Illinois; Gordon M. Gerson, Jr., USAF Academy, Colorado; James Hicks, Van Nuys, California; Paul M. Kelley, North Andover, Massachusetts; Albert W. Mayers, Melrose, Massachusetts; Jim Newell, Colorado Springs, Colorado; Don Pumphrey, Pueblo, Colorado; Brad Stych, Algonquin, Illinois; Colin Tuttle, Houston, Texas and Thomas Underwood, Wynnewood, Pennsylvania.

The scholarships, which provided round trip air fare, tuition, field trips plus room and board at Colorado College, were offered through the generosity of Albert H. Wohlers (ANA Insurance Administrator), Abe Kosoff, The Franklin Mint, Numismatic News, Token and Medal Society, Jess Peters, Joe Flynn, Sr., Fred Weinberg (Numismatics Ltd.), A-Mark Coin Company, Inc., Liberty Coin Company (Frank Cafaro), B & B Coin Company, Coin Investments, Inc., and Eric P. Newman.

The high qualifications of over one hundred applicants presented a difficult task for judges Gary E. Lewis, Young Numismatist Committee member; Bob Davis, past president of the Colorado Wyoming Numismatic Association and Glen Gundelfinger, president of the Longmont Coin Club.

In addition to selecting the fourteen scholarship recipients the judges named Michael Alberts, Cawton, Connecticut; T. A. Lucas, Pittsburgh, Pennsylvania; Edward P. Mack, Troy, New York; Peter Heidkamp, Melrose, Massachusetts and Robert Nolan, Melrose, Massachusetts as alternates.

The enthusiasm demonstrated by the applicants is indicative of the deep-seated interest in the numismatic hobby and their sincere desire to learn.

RELICS OF THE OLD WEST OFFERED BY ANA MUSEUM

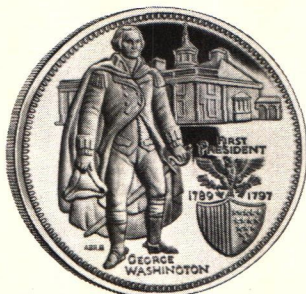

Donations to the museum and library of the American Numismatic Association are wide and varied. Gifts range from single coins to complete collections, from a framed numismatic item to museum cases, from a single auction catalogue to an entire publisher's overrun of a numismatic reference book, but, perhaps the most unusual donation, is a recent gift secured through the Rocky Mountain Bank Note Company, Denver, Colorado, of old silver dollar bags.

These cloth bags were used by banks and businesses in the Rocky Mountain West when silver dollars circulated freely. Manufactured almost a half century ago by Detroit Coin Wrapper Company, the bags were distributed to western banks by Rocky Mountain Bank Note Company. The bags were made in two sizes — \$200 and \$250, the amount clearly printed on the face.

The money bags donated to the Association have all been used. They have also been laundered and, aside from several that are being reserved for a museum exhibit, are being offered to ANA members on a first come, first served basis. Priced at \$1 each either size, plus 25 cents for postage and handling, collectors may obtain one of these relics of the Old West by writing ANA, P. O. Box 2366, Colorado Springs, CO 80901. Proceeds from the sale will help defray costs for the new museum additions.

NCS ORIGINAL THIRTEEN STATES ISSUE

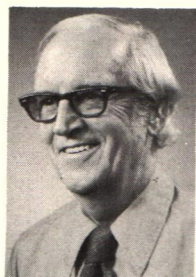

The National Commemorative Society has recently issued the Thirteen Original States Coin-Medal to its 5252 members. Sculptured by Abram Belskie, the recipient of ANA's 1974 Sculptor of the Year award, this coin-medal honors the original thirteen states which came into existence with the signing of the Declaration of Independence. It is the twentieth issue in Series III of The National Commemorative Society.

The obverse of the Thirteen Original States Coin-Medal portrays George Washington — the first President of the United States — and his Mount Vernon home. The reverse features a colonial montage, including soldiers, frontiersmen and explorers.

Numismatic Vignettes

by Glenn B. Smedley

• Slips that pass — Bowers and Rudy auction catalog, late spring of 1974: "The presently offered coin (original 1851 dollar) was acquired from us by private treaty." Well, at the price of some coins today, maybe they are acquired by "treaty."

• In a recent column, William F. Buckley, Jr. quoted the experience of a professor of criminology who decided to take a temporary assignment as a regular police patrolman. Said the novice patrolman later, "As a criminologist, I had always enjoyed great amounts of time in which to make difficult decisions. As a police officer, however, I found myself forced to make the most critical choices in the time frame of seconds rather than days: to shoot or not to shoot, to arrest or not to arrest, to give chase or let go — always with the nagging certainty that others, those with great amounts of time in which to analyze and think, stood ready to judge and condemn me for whatever action I might take or fail to take."

There was more to the article but this is enough to remind us of a point we all should ponder now and then: generally we are ill equipped to criticize others for actions or conduct under circumstances with which we are not familiar. The other day I saw Don Kessinger, one of baseball's truly great shortstops, "boot" a sharply hit grounder. Some fans booed him and I

wondered how many of them had ever played in a major league game.

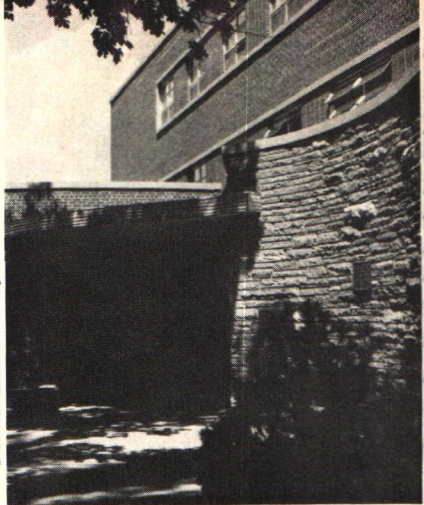

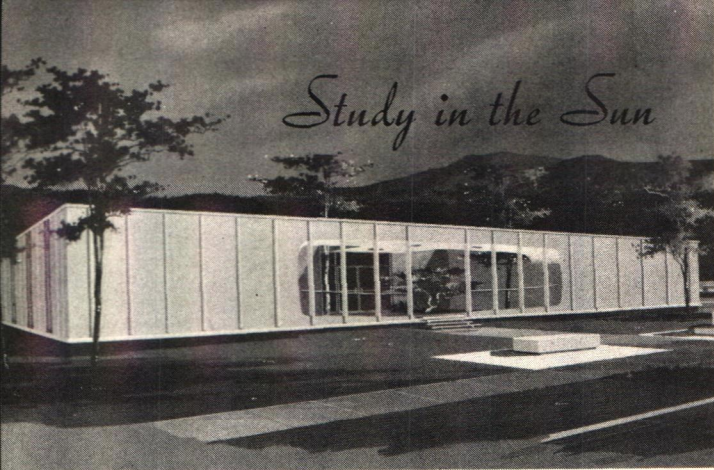

• Most of us know that coins, or replicas of them, have been used for a long time as decorations or integral parts of many items. So it isn't surprising to find replicas of coins on some of the match boxes or "match safes" that were in use around the turn of the 20th century. The example illustrated herewith is of base metal and carries the imprint "Pat. March 1, 1904" on the inside of the cover. Unfortunately, the advertisement that was on the inside of the cover, printed on heavy paper, has been destroyed.

These "match safes" were used to protect the old nonsafety friction matches from becoming ignited and from body moisture when carried in one's pocket. They were made in an almost endless variety of shapes and sizes, and of materials from 14 karat gold and sterling to base metals, leather, hard rubber, wood and synthetics.

ANA Sixth Annual Summer Seminar

by Pat Friesen

"Where can you explore a ghost town, get lost in a gold mine, take a VIP tour of a US mint, and acquire valuable information about your hobby?" 108 numismatists, including eighteen juniors, discovered the answer to these four questions while attending the sixth summer seminar of the ANA held in conjunction with Colorado College of Colorado Springs.

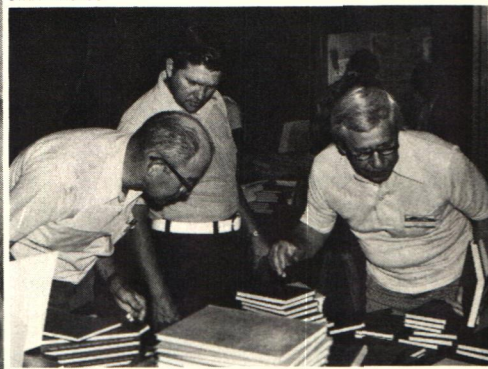

With the cooperation of eight instructors, classic Colorado weather and the ANA Headquarters' staff, July 7th through 13th evolved into the most successful week in the history of this summer session.

Sunday, July 7th, set the pace for what was to be a hectic week of classes, sightseeing trips and Colorado College activities. After registering at Loomis Hall on campus, seminar participants spent the rest of the afternoon at the Headquarters' book sale where old coin books and numismatic supplies were going for a

dollar and under. Following an evening get-acquainted hour, Steve Tebo, Boulder, Colorado, and Adna Wilde, ANA Governor of Colorado Springs, presented an educational program on Colorado National Bank Notes and Leshar Referendum Dollars.

Although the Rocky Mountains had already served as an unofficial welcoming committee to greet all seminarians arriving on Sunday, Monday morning brought official greetings from the Dean of Colorado College, Dr. Richard Bradley, and ANA officials, President Virginia Culver and Executive Director Edward C. Rochette. Classes began immediately afterward with the following instructors in charge: Joel Malter, professional expert on ancients, *Introduction to Ancient Coins*; Ken Bressett, manager of Whitman Coin Products, *Introduction to Early American and Colonial Coins*; Arthur Fitts III, Assistant to the Executive Director of ANA, *Introduction to Medieval Coins*; Richard Long, former ANA Governor and museum curator, *Coin Grading*; Harry Adams, chief photographer of The Franklin Mint, *Coin Photography*; and Charles Hoskins and Skip Fazzari, Director and Assistant Director of ANACS, *Detection of Altered and Counterfeit Coins*, with the assistance of Adna Wilde. These same classes met regularly for three days with most also meeting on Thursday, the first day of the field trips.

Young numismatists from around the United States gather following the educational program. They are, left to right: Brad Stych, Algonquin, Illinois; Daniel Felsenthal, Long Beach, California; Robert Gartenberg, Wilmette, Illinois; Kenneth C. Byrne, Jr., South Gate, California; Gordon M. Gerson, Jr., Air Force Academy, Colorado Springs, Colorado; Paul M. Kelley, Andover, Massachusetts; James Newell, Colorado Springs, Colorado; Don Pumphrey, Pueblo, Colorado; Albert W. Mayers, Melrose, Massachusetts; Thomas Underwood, Wynnewood, Pennsylvania; and Jeff Garrett, Clearwater, Florida.

Seminarians meet their instructors at assembly.

Howard F. Johnson, consultant to the Director of the United States Mint, fields questions following his lecture, "Coinage of the United States."

Even though there were no complaints from instructors of bored and yawning students, Wednesday's schedule presented a change of pace with Howard F. Johnson, consultant for the United States' Mint, lecturing on US Mints — their coinage and their production. As predicted by Executive Director Rochette, Johnson's treatment of his topic was as thorough and interesting as his coverage of audience queries. No questions asked went unsatisfactorily answered as Johnson shared the great amount of knowledge he gained during his many years with the US Mint and assaying office.

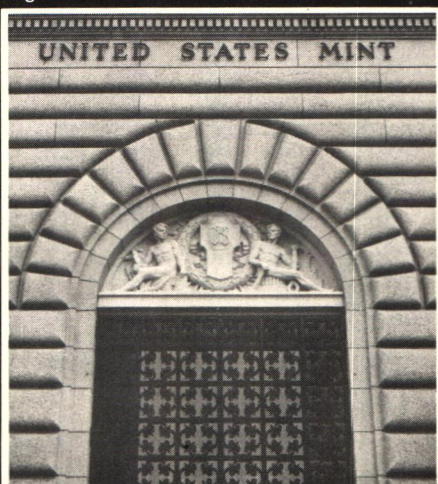

Traditionally billed as "study in the sun," this year's seminar was not a disappointment as temperatures topped the 90° mark — a heat wave for this part of the country. In addition to classrooms filled with microscopes, camera equipment and chalk boards covered with figures, seminar participants had the opportunity to study in the Colorado sun during bus field trips to the Cripple Creek-Victor area and the Denver Mint.

Thursday and Friday once again saw the Rockie Mountains playing hosts to the ANA group. Each day, half the seminar members followed the winding path of Highway 24 through the mountains, over Ute Pass and down into the area which once housed one of the largest gold mining operations in the country. After passing the Molly Kathleen Mine on the way to Cripple Creek, each bus load toured the El Paso mine and visited with mine Superintendent Dale Weaver who barely broke

stride even though he sported two fractured feet as the result of a mining accident. Due to a power failure, the group did not descend into the mine shaft.

Included among the many fascinating stories woven into the history of Cripple Creek are — tales of Groucho Marx driving an ore cart from Cripple Creek to Victor after his vaudeville act closed in Cripple Creek — memories of Jack Dempsey (older brother of heavyweight champion William Harrison "Jack" Dempsey) who was killed in a local mining accident — and remarks from Julian Street's exposé on Myers Avenue (the famous local redlight district) which was published during the 1930's in *Collier's* and later earned him the distinction of having Myers Avenue renamed . . . as Julian St.

Added to the Cripple Creek gold mine itinerary were the Ajax, Independence and Gold Coin mines which were seen from the windows as the ANA buses rumbled along Highway 67 on their way to Victor. Once a boom town much like its sister six miles away, Victor still boasts some memorabilia: mine tailings, abandoned shafts . . . and even the home of Lowell Thomas who started his famous journalism career at the *Victor Record*.

Seminar prospectors trek from the main shaft of the El Paso mine high on the ore dump to view the mine's mill/gold ore processing.

Victor, the second day of on-the-scene study was spent in Colorado's largest and most modern city, Denver. Here several hours were devoted to observing the minting of United States' coinage. Although some of the machinery dates back to the first quarter of the century, the striking of coins is now a sophisticated combination of highly intricate machinery and well-trained operators. Superintendent Betty Higby welcomed ANA guests and mentioned, among other things, plans for the new Denver Mint soon to be under construction.

As if microscopes, close-up diopters, gold mine shafts, copies of old auction catalogues and the clanging of die against metal weren't enough to keep everyone occupied, numerous other activities and facilities were available to any student or instructor who had the interest and energy to leave Loomis Hall during the evenings. Sunday, all day, was the Colorado Springs' monthly flea market featuring the treasures of local antique and coin dealers. Tuesday was open house at the Fine Arts Center which is directly south of ANA Headquarters.

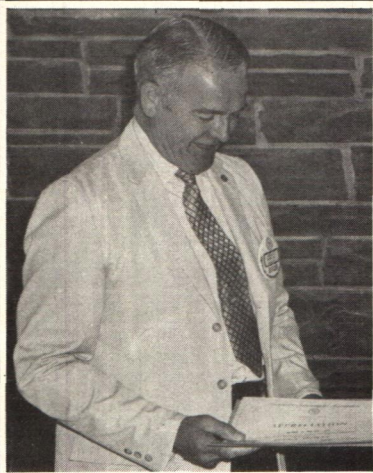

As visitors on the Colorado College campus, ANA students were extended temporary student privileges including use of Schlessman swimming pool, college tennis courts and Tutt library. Special campus events were highlighted by a production of the opera, "The Marriage of Figaro." Those numismatists who were so dedicated that they could not pull themselves away from their studies for even a few hours found the ANA library and Headquarters open every evening until 9:00 with Librarian Geneva Karlson and Editor Neil Harris on hand to answer questions.

Hectic??? That seems to be the best one-word description for the sixth summer of study and fun in the sun. Even Saturday, the final day of the seminar and morning of graduation ceremonies, was hectic for some . . . particularly the ANA staff members who were madly printing Certificates of Completion and Appreciation for students and instructors.

Because of the growing popularity of the seminar (as evidenced by the number of people who were turned away due to full classes), applications will not be accepted for the 1975 seminar until after January 1, 1975. It will still be necessary for the application to be accompanied by a deposit for securing a place in the appropriate class. By observing the January 1st date, the seminar's director of admissions hopes to give all interested numismatists an equal opportunity to enroll in the most popular courses.

Even so, it is never too early to begin considering the answer to those questions, "Where can you acquire valuable information about your hobby, explore a ghost town . . ."

Meet Your ANA Office Staff

Geneva "Genie" Karlson

She's a little lady: five feet tall, hair piled high, glasses perched atop a perky nose . . . and she's the Association's librarian, Geneva (Genie) Karlson. The name probably isn't new to most ANA members, particularly those who make use of our borrow and order by mail services.

While the stereotyped librarian is pictured as sitting behind a desk hushing noisy children or balancing on a bookshelf ledge searching for lost books, Genie has helped her profession overcome this static image. With the assistance of a minimal staff, for seven years she has processed book and reprint orders; handled library donations; answered mail dealing with available library resources; mailed out books that have been requested; and ordered new acquisitions that then have had to be catalogued upon arrival. While doing all this she also has managed to sign up an average of seventy-five new members per year, most of which are visitors to the library.

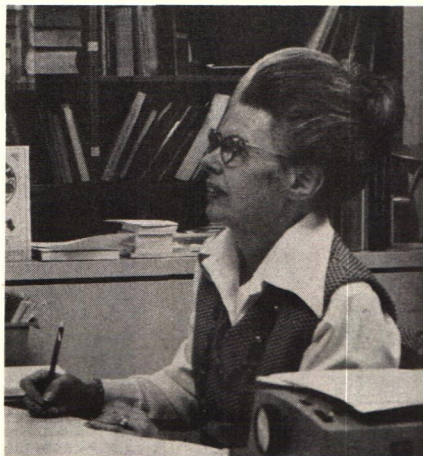

The ANA library catalogue is a source of pride for Genie, and rightly so. Last year she was recognized with the Medal of Merit for her contributions to the Association, the major one being the devising and organizing of our numismatic cataloguing system. The complexity of this project goes far beyond most borrowers' understanding, but evidence of its success is the ease with which one can use the library, either by mail or in person.

Genie and her husband, Dick, both enjoy collecting and are members of the Association. Her specialty is odd

and curious pieces — bricks of tea, cowrie shells and knife money, to name a few.

The fact that Genie now finds herself a numismatic librarian in Colorado Springs is not odd and curious in view of her background. While attending school in Michigan, she worked in the college library and finished a degree in English. By the time she graduated, she had earned the responsibility of being in charge of acquisitions. Graduate courses in library science later supplemented Genie's on-the-job experience.

When asked what she likes most about working in the world's largest circulating numismatic library, Genie answers very positively, "It's the kids; I enjoy helping the juniors who are interested in our hobby." And you can bet your bottom 1804 silver dollar that any junior who meets this librarian remembers her for more than her, "Shhhhhhhh!"

MAUNDY MONEY

tips for
reading
&
research

Maundy Thursday is the day before Good Friday and marks the day that Christ, after the Last Supper, washed the feet of his disciples and commanded them to follow his example in acts of kindness, love and compassion.

This service has been repeated regularly by Christian churches throughout the world with different variations.

Written references are made to this observance in England in the latter part of the sixth century. It became the custom of the Sovereign to perform this ceremony and as the years passed gifts of food, clothing and money were given to the poor as part of the ritual. These gifts were called Maundy.

Maundy Money was used first in the latter part of the tenth century and probably silver pennies of the realm were used in amounts not recorded. Sometime in the 1500's the amount given began to be a specific amount, being the age of the Sovereign performing the ceremony.

Under Charles II (1660-85) are found the first records of coins being minted especially for the Maundy service and these were hammered issues. Later milled coins were used under his rule and those following.

For more information concerning this colorful and often elaborate religious service and the various issues of Maundy money, you are invited to read the following book: all are in the ANA library and available to members on a loan basis:

LIBRARY BOOK NEWS REVIEWS

The following books are available from the ANA library on a loan basis. People interested in purchasing these should write to the address listed with each book.

Britain's Bronzes

THE BRONZE COINAGE OF GREAT BRITAIN by Michael J. Freeman, M.A. Privately published by the author, 1970. 154 pp. plus 18 page plates, 258 photos in the text. Hard cover, art paper. Bebee's Inc., 4514 N. 30th St., Omaha, NB 68111. \$8.00.

Not being intimately familiar with the subject coins, this reviewer can do no better than quote from a review in Spink's *The Numismatic Circular*, with which an examination of Freeman's book gives no cause for disagreement.

"This is one of the most impressive works to appear on British coins in recent years. It is undoubtedly the most exhaustive analysis of British bronze coins ever produced and as such it is unlikely that it will be improved on. It covers the bronze series from its inception in 1860 up to the decimal coins of the present. Each known type and variety of numismatic importance is included, as are proofs, patterns and trial pieces."

The penny, halfpenny, farthing, decimal coinage, and patterns and trial pieces are treated separately in the book's five chapters. These are preceded by an enlightening introduction which includes a historical background, technical summary, and scope of the catalog of the subject coins.

Descriptions, supplemented by very fine illustrations (generally enlarged), are in great detail of the many varieties of each type issued. Much space is saved and understanding made easier by the use of boldface type to dis-

tinguish the principal features of each variety following its first description. Obverse types of each date are identified by numerals, reverses by letters, and the resultant coins are assigned a rarity rating from R 1, believed unique, to C/20, over 150 million "in existence."

Countless hours must have been devoted to the study that led to the publication of this work. In addition to his own collection of 60,000 Victorian pennies, the author "examined private and public collections as well as quantities of coin in circulation." For such an excellent book and thorough coverage, \$8.00 is a very reasonable price. — Glenn S.

Two pattern pieces of a 1 leone commemorative coin were struck in gold for presentation by the Bank of Sierra Leone to His Excellency, President of Sierra Leone, Dr. Siaka Stevens, on July 18, 1974. The pieces are patterns of a coin ordered from the Royal Mint by the Bank of Sierra Leone to commemorate the bank's tenth anniversary.

The commemorative 1 leone is the same size as the United Kingdom crown piece, i.e. 38.6 mm diameter, 28.28 grams weight. Two versions will be struck, one of ordinary circulating quality in cupro-nickel and the other of proof standard in sterling silver. The size of the issue has not yet been decided but will not exceed 100,000 of the cupro-nickel version and 40,000 of the silver proofs.

The formal issue date in Sierra Leone will be August 4, the day of the anniversary. Shortly afterwards both versions will be available to dealers from the Royal Mint and the proof version will be available by direct mail order from the Royal Mint's Numismatic Bureau, Tower Hill, London EC3N 4DR and in Washington, D. New Site for Denver Mint

Mary T. Brooks, Director of the Mint, announced on July 16, 1974, in Denver, Colorado, the site for the new Denver Mint.

The site for the new modern minting facility will be on the Clayton Trust Property site in the Park Hill section located in the corridor between the central business center downtown and Denver's Stapleton Airport.

In the spring of 1973, it was an-

nounced that a site along the South Platte River, also near downtown Denver, was preferred for the structure. Problems developed with railroads in the area and their proposed construction plans. As a result, a new site was sought.

During this time, Mary Brooks related the many considerations that took place and was critical of many public statements which emanated from the Denver community concerning the two alternate sites of Park Hill and the Federal Center, the latter being outside the confines of Denver.

Design contracts are expected to be awarded around September 1, 1974, and contracts for equipment to be put out for bids during the summer of 1975. Actual construction and equipping of the new, multi-million dollar plant will take about three years. It is estimated that by the end of 1978, this new facility will be capable of producing coin at the rate of 10.7 billion a year.

New Signatures Inspected

Treasury Secretary William E. Simon and the Treasurer of the United States Francine I. Neff witnessed the first dollar bills with their signatures roll off the press July 3, 1974, at the Bureau of Engraving and Printing.

The new Simon-Neff notes, to be released by the Twelve Federal Reserve Banks as current supplies are depleted, will be designated Series 1974, replacing the present Series 1969D notes which bear the Shultz-Banuelos signatures, first printed July 28, 1972.

The new Series 1974 for the \$1 denomination will be released first, with serial numbers reverting back to number one, and because of the major series-year change, the serial numbers for each of the twelve Federal Reserve Banks will revert to 00 000 001A preceded by the prefix letter

associated with each of the banks.

The bills seen by Secretary Simon and Mrs. Neff were to start with E00000001A (eight digits, the letter E identifying the Federal Reserve Bank of Richmond, the A designating the initial issue of the Series).

Series 1974 notes are expected to be released to the Federal Reserve System later this summer with general circulation thereafter. Because of greater usage and more rapid attrition, the \$1 denomination will be printed first,

with \$5 and \$10 denominations appearing later as total conversion to the new notes is completed in the Bureau of Engraving and Printing and supplies are depleted or retired.

It was the first time since June 4, 1969, when the Kennedy-Elston notes were issued, that Federal Reserve notes had dual signature changes.

James A. Conlon, the Director of the Bureau of Engraving and Printing, presided at the brief ceremony in Washington.

"WHAT OUR CONSIGNORS SAY"

When we sold the Armand Champa Collection at public sale, Mr. Champa, one of America's most prominent numismatists, was so pleased with the results that he did something unprecedented in the annals of numismatic auctions: completely unsolicited by us he placed large advertisements in "The Numismatist" and other leading publications to thank us for our service:

"Thank you Dave Bowers and Jim Ruddy for the excellent handling of my coins through you American Auction Association. I was very well pleased with your wonderful descriptions of my coins, especially the patterns. The prices realized for my coins NEARLY DOUBLED the offers I received from other dealers."

We think that the comment that our auction sale results NEARLY DOUBLED THE other offers received is especially significant.

Recently another consignor, Dr. Bernard Bressler, of the Duke University Medical Center (Durham, North Carolina), wrote to say:

"I am most appreciative of your sending me the check and the results from your last auction. I am MORE THAN SATISFIED with the proceeds. I want to congratulate you on the BEAUTIFUL CATALOGUE and the BEAUTIFUL RESULTS."

Recently we sold the fabulous collection of United States and world coins and paper money formed over a long period of years by MR. MATT ROTHERT, DISTINGUISHED PAST PRESIDENT OF THE AMERICAN NUMISMATIC ASSOCIATION. Mr. Rothert's accomplishments include receiving nearly every major numismatic award, including the American Numismatic Association's highest award, the Farran Zerbe Award, in 1973.

We consider it significant that Mr. Rothert chose us to auction his famous collection. Equally important, once the sale took place, Mr. Rothert expressed his pleasure with our cataloguing of his material and with the results obtained. "I want you to know that I was WELL PLEASED with my recent auction." Many, many price records were shattered. The Matt Rothert Collection sale will live forever in numismatic history.

And, many, many similar unsolicited comments are in our files. What we have done for others, we can do for you!

We are delighted to announce that we have been awarded the public auction to be held in conjunction with the Great Eastern Numismatic Association Convention which will be held in New York City, in September, 1974. WE ARE NOW ACCEPTING CONSIGNMENTS FOR THIS VERY IMPORTANT NEW YORK CITY SALE which will include a 500 PC. offering of U.S. Paper Money, (Colonial, Fractional and Large Notes) as well as choice U.S. Type and Gold Coins. Additionally a superb offering of Israel and Judaica will be made.

PICTURED ABOVE ARE BOTH SIDES OF ONE OF THE 1000 MEDALS THAT I AM OFFERING WHICH DEPICT THE FIRST MOON LANDING. THESE MEDALS ARE ANODIZED ALUMINUM PERMANENTLY DYED THE COLORS SHOWN. (ANODIZING IS AN ELECTRO-CHEMICAL PROCESS THAT PRODUCES ON THE SURFACE OF ALUMINUM A THIN CRYSTALLINE LAYER THAT ABSORBS DYE AND PREVENTS TARNISH) ALL ILLUSTRATIONS SHOW THE ACTUAL SIZE OF THE MEDALS. THEY ARE 1-1/4 INCHES IN DIAMETER AND 5/16 OF AN INCH THICK. EACH WEIGHS AS MUCH AS 3 QUARTERS.

I SPENT MORE THAN 3 YEARS EXPERIMENTING TO LEARN HOW TO MAKE THESE MEDALS. AS A SCULPTOR I HAD DONE SOME CONVENTIONAL DIE ENGRAVING AND MEDAL MAKING AS EARLY AS 1968, BUT DID NOT SERIOUSLY PURSUE THIS INTEREST UNTIL 1971 WHEN I CONCEIVED OF THE COLORED ALUMINUM SLIT DESIGN WHICH SATISFIED MY DESIRE FOR ARTISTIC ORIGINALITY. USING A LATHE I MACHINED THE DIES ON WHICH I ENGRAVED MY DESIGNS OF THE SATURN V ROCKET LIFTOFF, AND THE RAISING OF THE FLAG ON THE MOON. I STRUCK THE MEDALS BY HAND ON A PRESS MADE WITH A 20 TON HYDRAULIC JACK. THE NEXT STEP WAS SPENT IN PERFECTING THE ANODIZING

PROCESS AND LATER TESTING DIFFERENT DYES AND TECHNIQUES FOR APPLYING THEM. I EVENTUALLY HAND PAINTED THEM.

I CHOSE APOLLO 11 AS THE SUBJECT MATTER OF MY FIRST MEDAL FOR THE FOLLOWING REASONS. FIRST, SPACE MEDALS SEEM TO BE POPULAR AND MORE WIDELY COLLECTED THAN MEDALS OF OTHER SUBJECTS. SECOND, EVEN AFTER 5 YEARS, THE FIRST APOLLO MOON LANDING STILL REMAINS THE MOST SPECTACULAR EVENT IN THE HISTORY OF THE UNITED STATES SPACE EXPLORATION.

THE MEDALS COST \$10.00 EACH AND THEY COME IN A 3 INCH BY 3 INCH SOLID BLACK WALNUT HOLDER. THERE IS A LIMIT OF 1 MEDAL PER CUSTOMER. IF FOR ANY REASON YOU ARE NOT SATISFIED, RETURN THE MEDAL AND CASE WITHIN 10 DAYS FOR A FULL REFUND. I WILL SELL THESE MEDALS UNTIL I REACH 1000, OR UNTIL ONE YEAR FROM THE DATE THIS AD APPEARS, AT WHICH TIME ALL DIES AND ANY REMAINING UNSOLD MEDALS WILL BE DESTROYED.

I PLAN TO CONTINUE TO PRODUCE OTHER LOW MINTAGE MEDALS IN THIS SAME STYLE WITH MY MAJOR GOAL BEING TO MAKE UNIQUE ATTRACTIVE COINS. I HAVE SOME NEW IDEAS THAT I AM VERY EXCITED ABOUT AND HAVE ALREADY STARTED ENGRAVING DIES FOR A BICENTENNIAL MEDAL OF THE UNITED STATES.

Perhaps your collection is less than the two we mention here or perhaps it is more. In any case World-Wide Coin Investments, Limited will be happy to make you a firm cash offer. Naturally we will be glad to travel to your city if your collection warrants it.

Oh yes, World-Wide sells coins too. If you would like to receive our catalog of U. S. or World Coins just let us know and we will mail you a copy.

Remember, when you deal with World-Wide Coin Investments, Limited YOU must be satisfied with the transaction or there is no transaction.

THE RESULTS SPEAK FOR THEMSELVES

Sell to us direct,
or let us auction your coins.
Either way, you make more
when you do business
with SUPERIOR.

SUPERIOR WILL PAY MORE FOR YOUR COIN COLLECTION THAN ANY OTHER DEALER

The serious looking people in the photographs above are collectors, investors, and even dealers who are attending an actual SUPERIOR STAMP & COIN COMPANY auction. They have a *proven history of paying record breaking prices* for rare coins.

4. WELL-ATTENDED AUCTIONS

We treat our public (both buyers and sellers) like royalty. Buyers come from every state in the union and many foreign countries. If necessary, we make hotel arrangements for them. We pleasantly, and patiently allow them to view every lot that interests them. Our auctions are a looked-forward to occasion

In 1973 a silver coin at just such an auction produced a record breaking price of \$110,000.00. A twenty dollar gold piece was bid up to \$60,000.00, for yet another record. How does this help you? Simple. The more we get ... the more you get ... and SUPERIOR auctions get more.

Coins consigned to, or purchased by SUPERIOR bring to the consignor, or seller prices far greater than when sold to other dealers. And there are good reasons why doing business with SUPERIOR means hundreds, or even thousands of more dollars in your pocket.

Such as:

1. TIMING

We advise you as to market trends. We have our thumb on the pulse beat of the economy. We know the most opportune moment to publicize and place your coins on the market. We don't conduct spur-of-the-moment auctions. They are well-planned, and well thought out to assure you of extra dollars by selling your coins during peak periods. *Our timed sales mean more dollars for you when you sell or consign your coins to SUPERIOR.*

2. EXPERT CATALOGING

Our catalogs are the envy of our profession. They have literally won awards, both for the professional manner in which they are written and for the graphic reproduction of almost 100% of the coins to be sold. They are printed on the best of papers. No expense is spared in catalog production. As a result, mail bidders can bid with confidence and assurity, based solely on our descriptions and photos. We will be glad to send prospective sellers samples of past catalogs. *These deluxe catalogs mean more dollars for you when you sell or consign your coins to SUPERIOR.*

3. LARGE AD BUDGETS

We have found that it pays to advertise. Months before an impending auction our full-page ad campaign is launched. Numismatic publications, financial publications, and all past buyers are alerted to the fact that SUPERIOR is conducting another auction. Mailing lists of Doctors, business and professional men, collectors and investors are purchased to augment over 10,000 proven names already on our books from past auctions. *Our large ad budget means more dollars for you when you sell or consign your coins to SUPERIOR.*

for old friends to meet and new acquaintances to be made. There is hardly ever an empty chair at a SUPERIOR auction. And they have all come for one express purpose ... to bid "top dollar" for your coins. *Our well-attended auctions mean more dollars for you when you sell or consign your coins to SUPERIOR.*

5. WE ARE PROFESSIONALS

You will immediately be instilled with a feeling of confidence and well-being when you sell or consign to SUPERIOR. We are professionals, and we know the coin business. Since rare coins are only available from collectors, and since it's a sellers market, SUPERIOR has to make you a "better offer". The last thing we want is for you to sell to a competitor. We won't let this happen. *The same professionalism enters the picture when it's time to sell, this means more dollars for you when you sell or consign your coins to SUPERIOR.*

6. PURCHASING POWER

When we purchase your collection you will receive *immediate payment*. If you elect to consign your coins you can receive an *immediate liberal advance*. Whatever your preference you will be doing business with knowledgeable people. We need your coins ... and we'll pay "top prices" for them.

When you consign your coins for auction you will receive a contract that fully protects you. Your coins will be placed in maximum security vaults and fully insured. You will receive an inventory list of each and every one of your coins. Our auction will be conducted in our spacious, comfortable 250 seat auditorium, right on our premises. A professional auctioneer will auction your coins. At SUPERIOR, under one roof, everything and everybody will be working for you. The higher prices realized at SUPERIOR may put your name in the "Red Book". No collection, be it king's or common man's is beyond our purchasing power ... and we use our own capital not borrowed money. *This purchasing power means more dollars for you when you sell or consign your coins to SUPERIOR.*

Bonner Did It! Ruby Did It! Harold Lloyd Did It! Claveria Did It! Gilhousen Did It! Pradeau Did It! Major Banks Do It!
WHY DON'T YOU DO IT!

The individuals above all elected to dispose of their collections through SUPERIOR. Obviously, after years of collecting, these knowledgeable, important and famous people, who could have sold or consigned their coins to any major dealer chose SUPERIOR. Why? Simple! Just read items 1 through 6 one more time. They add up to MORE DOLLARS FOR YOU WHEN TO SELL TO SUPERIOR.

The Record Speaks for itself!

Special Design and
Largest Denomination
Ever Featured in the ~

1974 INDIA PROOF SET

Official Government Issue Price
~ **\$28.00** per set

A special reverse design, conveying an important national theme, will be featured for the first time on three of the 1974 India Proof coins. Bearing this design and highlighting the 10-coin Proof Set will be a beautiful new 44 millimeter silver 50 Rupee — largest denomination silver coin ever issued by India!

The new reverse design, also appearing on the 10 Rupee and 10 Paise coins, depicts a family of four — a man, woman, boy and girl — with a symbolic "Family Planning Triangle" in the background. The inscription on the coins in English and Hindi relates the theme, "Planned Families — Food For All".

This significant design and the large denomination coin are examples of the continuing adaptability of India's Proof Program to current interests and needs. Since the beginning of the Proof series in 1969, the inclusion of special commemoratives, new designs and different denominations has created an ever growing interest among collectors in all India Proof coinage. Today, all past issue India Proof Sets are selling at well above their original issue prices. In fact, the 1969 and 1970 sets have more than doubled in value, and the 1972 set is already selling at nearly 50% above its original issue price! Certainly, with the magnificent 50 Rupee and two redesigned coins, the 1974 India Proof Set is again a potentially superior investment.

The remaining seven coins in the 1974 India Proof Set are virtually the same in design and composition as those of last year. Included again will be the very popular and interestingly shaped square, scalloped and hexagonal coins. Portrayed on all the coins, including the obverse design on the 50 Rupee coin, will be the intriguing national emblem of India. This emblem, portrayed several times on past issue India Proof coinage, is a replica of the famous "Lion Capital" of the Ashoka Pillar, erected in the 3rd Century B.C.

1974 India Proof Sets are available now at just \$28.00 per set, plus handling. Special two coin sets (including the 50 Rupee and 10 Rupee) may be purchased at \$20 per set, plus handling. Proof 50 Rupee and 10 Rupee coins are also available separately at \$14 and \$7 each respectively. All India Proof Sets and coins will be beautifully struck at the Bombay Mint, and packaged in presentation cases suitable for display. The number of 1974 India Proof Sets minted will exactly equal the number of orders received by the official government deadline date, September 15, 1974. Please reserve your India Proof coinage today.

The Mint exercises the utmost care in striking these Proof coins to assure you the highest quality coins possible. This careful minting process takes time and so we ask that you please allow us 6 months after the ordering deadline before expecting delivery of your sets.

Deadline: September 15, 1974

OFFICIAL ORDER FORM

The acceptance of orders is contingent upon the Mint's ability to meet the demand. Should the number of orders exceed the ability of the Mint to produce these coins, it may be necessary to affect a reduction or cancellation of some orders received. In the event of such reduction or cancellation, a full refund will be made on any undelivered sets. In no event shall Paramount be responsible for delays in delivery from causes beyond its control.

...plus South Dakota's historic "first" in medallion art, by the creator of Mt. Rushmore! Celebrated sculptor Gutzon Borglum made a plaster in 1935—specifically for striking as a medallion—of his magnificent Mt. Rushmore National Monument. This is the design he actually intended to be carved on the mountainside, with the four presidents—Washington, Jefferson, Lincoln and Theodore Roosevelt—shown from the waist up. Only their heads were ever completed.

Now South Dakota's State Bicentennial Commission has selected The Lincoln Mint to strike their Official 1973 Bicentennial Medallion directly from the rediscovered original plaster

by Gutzon Borglum!

All six pieces shown here feature the superbly detailed deep relief and lustrous "proof" finish for which The Lincoln Mint is famed. They are the first of four yearly series of Official Bicentennial Medallions. One side of each 1 1/2"-diameter medal will be based on a winning design from the Annual High School Scholarship Contest held through 1976.

**A choice selection of
RARE COINS
from . . . the Numismatic Gallery**

The Numismatic Gallery has purchased many new and rare coins in the past two months. Many of which are for the quality conscious collector. We have a reputation, at the Gallery, of having some of the rarest coins ever to come onto the numismatic market. We strive toward betterment of collections whether it be a small collector trying to upgrade his Lincoln Cent collection or be it a large museum who wants to complete their pattern collection (which we are in the process of doing), we are here to serve you. If you are interested in one coin that you have been seeking for many years or if you just want to collect rolls of silver dollars, we are just a collect phone call away.

**1794 U.S. SILVER DOLLAR
STRUCK IN COPPER
Judd-18
Unique!**

1794 Silver Dollar struck in copper. Unique and from the famous Judd collection of United States patterns. One of the rarest and sought after coins to ever appear on The Numismatic Market in many, many years. This coin is *The First Silver Dollar* ever struck by the United States Government. This coin was struck with the unfinished die—no stars on right or left borders. Being the only one struck—it was found unsatisfactory since there were no stars representing the states on the coin. After this was decided, the mint struck another 1794 silver dollar with stars on the right and left borders—and thus the mint officials are said to have given the first dollar (the rejected design) to President George Washington—which this being that coin. A once in a lifetime opportunity to acquire a piece of early americana. Since this coin being the first dollar struck by this country, we believe it to be an excellent investment for the future.

\$100,000.00

**1827 Quarter
Struck in Copper
2 OR 3 Known**

The Restrike. Judd-48. Browning 2. The regular obverse with the reverse B-2 of 1819, both being rusted slightly. Struck with a reeded edge. Extremely rare since there were only 2 known in 1890 at the famous Parmelee sale of which this one is taken from. These being struck circa 1858 by W. E. DuBois or one of the Eckfeldt sons who also sold restrikes and patterns around the Philadelphia area. There are only 8 original 1827 quarters known to exist and can be purchased for around \$28,000. This coin being offered is a full blazing mint red proof, STRUCK IN COPPER, and is one of only 2 or 3 known, and is twice as rare as any of the silver varieties. \$23,000.

**\$4.00 STELLA
Struck in Copper**

One of the most magnificent Stellas we have ever owned. The obverse and reverse dies were designed by Charles Barber with the head of LIBERTY facing left. The head of LIBERTY has the long beautiful flowing hair and wearing a coronet inscribed LIBERTY. The reverse consists of a large 5 pointed star inscribed ONE STELLA 400 CENTS incused. Struck in blazing red copper, there are only 2 or 3 known of this variety that have not been gilded. This coin is brilliant red in appearance and has a full proof surface. There have not been any on the market in this condition in many years and it will no doubt be many more until you see another of this quality. Rarity 7 (4-12 struck), but Rarity 8 in full blazing mint red copper \$15,000.

WANTED

America's best buyer of Rare coins urgently needs your collection!

As one of America's foremost Rare Coin firms the demands on our inventory are extensive, requiring us to purchase Choice and Rare Coins at an ever expanding rate.

We Want To Buy: Your entire collection is urgently needed no matter what the size, if it contains the items we are looking for. Generally we are interested in any collection which contains Choice and Rare coins and early U. S. coins in AU or better condition.

Individual Coins: We are sincerely interested in individual sets and single coins as well as complete collections. We are particularly interested in worthwhile numismatic items that retail over \$10.00 each. Our needs range from Colonials thru Gold including rare dates as well as more common dates in Choice condition.

Selling to US: You will find that selling to our Rare Coin Galleries is easy and safe. Here is all you do — Package your coins carefully and send them to us by insured or registered mail. Immediately upon receipt of your coins David Bland, Jr., will personally examine your coins and send you our generous offer in the form of a confidential insured check. Upon receipt of our offer you can notify us of your decision to sell (nearly every one of the thousands of offers we have made over the past decade has been accepted). If for any reason you decide not to sell, your coins will be returned to you by insured mail at our expense. If your collection is too large to mail please send an itemized inventory to the attention of David Bland, Jr., and we will travel to you if the size of the collection warrants it.

You Will Receive More For Your Coins: Because our needs are so great at this time we will pay more than any other major dealer in the U. S. Why not sell to us as thousands of other satisfied collectors have.

For references you may apply to any numismatic publication or numismatic organization. We are members of: The American Numismatic Association (Mr. Bland is Life Member 677); Professional Numismatists Guild; Texas Numismatic Association; etc.

"The source of Wisdom in coin selecting"

A RARE OPPORTUNITY

to acquire one of the truly rare Greek coins that is missing from most major collections: The coin is a silver Stater from Carthage, with the bust of a curly-haired male head that for centuries has been thought to be Hannibal, although later theory attributes it to Melqart, the main god of the mother country, Phoenicia (The August, 1974 issue of National Geographic, has a story about Ancient Phoenicia, in which 1 page is devoted to Carthage. There are two illustrations to reflect it's culture, and one of them is this coin). Some theory also puts its place of mintage as Carthago Nova, Spain. The reverse depicts the emblem of Carthage, a horse standing with a palm-tree behind.

You will note that I have been conservative and qualifying in my attribution of this coin. One of Europe's largest auction houses in a catalogue last year was not. They described it as a very rare coin issued by Hannibal, with his portrait, and its mintage location as Carthago Nova, Spain, where he began his famous journey to war.

The coin is in Very Fine condition, and has perfect centering on the rev., and very good centering on the obv. with the entire head on the coin, just off dead center. We are offering this prize addition to a collection for just \$3,000.00

A fortunate purchase of Volume No. 1 in the new series, 'The World of Numismatics', "Ancient Greek Coins", by G. K. Jenkins, curator of the coin and medal department of the British Museum, which is being raved about by everyone who has read it, as the most interestingly written and beautifully illustrated and bound book ever on the subject. Selling everywhere at \$25.00, we have a limited quantity on hand below wholesale at 16.50

Our last offering is a collection of Ancient Syria bronzes, consisting of 61 coins, all different, including a nice selection of Syrian Kings, autonomous coins and Imperial coins from Antioch, Zeugma, Samosata, Cyrrhus, Hieropolis, Leucas and Laodocia ad Mare. Average pleasing Very Fine \$1,500.00

The collection can be expanded and even completed without great expense, as this is the most underpriced series of ancient coins, as you can see above, for it works out to just \$24.50 per coin for this collection.

READY IN OCTOBER

THE SILVER CROWNS OF FRANCE 1641 - 1973

by George Sobin, Jr.

"A catalogue of the regularly issued crown-sized silver coins of France struck under national authority after the coinage reform of 1641, including the ecus from 1641 to 1794 and the comparable decimal issues from 1795 to 1973".

This long-awaited work represents the first in-depth treatment of the French Ecu by type, by date, and by mintmark, with historical background of all the types, rarity, and up-to-date valuations in three and four grades.

Thousands of different dates and mintmarks are listed by frequency of occurrence or mintage.

Now, for the first time, the results of nearly 30 years of collecting and research are available to all.

The relative rarity and approximate current value of **every date and mintmark of French Silver Crown from 1641 to the present** can now be determined by consulting the rarity and valuation charts.

Profusely illustrated, some 125 major types and varieties are shown, a number of which are previously unpublished.

Whether you are interested in this series from the viewpoint of the historian, the economist, the collector, or the dealer, this book should prove invaluable.

A very limited edition of this book is in preparation, and is expected to be ready by October.

The retail price is: **\$24.00**

(postpaid in the U.S. and Canada).

Please send all orders, accompanied by remittance, to the publisher:

CIVIL RIGHTS MEDALLION

CIVIL RIGHTS

Martin Luther King, Jr. came to national attention in 1956 when he took charge of a boycott of Montgomery public transportation by Blacks protesting Jim Crow discrimination. He had been ordained a Baptist Minister some year earlier, and preached non-violence from his pulpit. In 1964 he was awarded the Nobel Peace Prize. Active during the period when the Civil Rights Movement was at its height, this great American accomplished much for his people, and in so doing, for his country.

THOSE HONORED

The man of non-violence, Martin Luther King Jr., was assassinated in Memphis in 1968 as he prepared to lead a march by striking municipal workers. In 1974 his 70-year-old mother was shot and killed as she played the organ in the little downtown Atlanta Church where her son had encouraged his congregation to use non-violent means to achieve equality with their fellow Americans. Rev. Martin Luther King Sr. spoke for his son and wife when he said, "I don't hate anybody. I have no hate in me".

THE MEDALLION

The Civil Rights Medallion, in the tradition of The Lombardo Mint, is a fitting memorial to those honored, Rev. Martin Luther King, Jr. and his mother, Alberta Christine King. On the reverse is the wording, "WE AS A PEOPLE WILL GET TO THE PROMISED LAND", and the figures of two boys on the threshold of manhood, one Black and one White, walking hand in hand, looking to the future with confidence. The obverse carries the legend, "ALBERTA CHRISTINE KING — MARTIN LUTHER KING JR." and their respective life dates, "1904-1974" and "1929-1968", and the portraits of the two great Americans being honored.

HISTORICAL SIGNIFICANCE.

The full implication of the Civil Rights Movement will only become clear in the future. It is obvious, however, that the names of both Mrs. King and her son will go down in history as martyrs to the cause. This, plus the superior quality of the medal itself will undoubtedly make the Civil Rights Medallion by The Lombardo Mint a most treasured and sought-after item in years to come.

HOW TO ORDER

The 1½" diameter Civil Rights Medallions are available in Antiqued Bronze at \$4.00 each, and in .999 Solid Silver Proof at \$14.00, and may be ordered from

MORE ON OUR NATIONWIDE BUYING SERVICE

The success of our nationwide buying service was entirely contingent upon you-and you have made it successful. From Maine to Hawaii, we have received countless collections to buy. In the two years since the beginning of our nationwide buying service, we have purchased 87.4% of these collections. This has enabled us to expand our retail sales, but even more important, it has instituted a rational, reasonable, and secure way for you to sell your collection. To those of you who have sold us material, we pledge our continued fair and upright dealings. For those of you that we have not yet met, we urge you to take advantage of our nationwide buying service.

Here is what we are able to provide:

1. Unlimited instant cash (confidential, of course, if you wish).
2. Bank references available. (Contact Mr. Bill Whitsitt at Citizens National Bank, 2001 Bryan Tower, Dallas, or Mr. Steve Parker, Texas Bank & Trust, One Main Place, Dallas.)
3. Call us collect at (214) 748-4044 or (214) 748-4045 if you desire to sell a large collection, or you may ship your collection with invoice to Mike Follett Rare Coins, Plaza Level, One Main Place, Dallas, Texas 75250. Within 24 to 48 hours, you will receive our generous offer by return mail.
Should you decide not to sell your collection, we will return your coins immediately upon hearing from you. Naturally, the coins will be fully insured and we will pay all postage. As mentioned above, 87.4% of those who have sent us coins in this manner have sold their collection. Through this method, you risk absolutely nothing.
4. Should you have an extremely large collection, we can and will be at your home, office, or bank anywhere in the U.S.A. within 24 hours of your call.
5. We are prepared to buy your entire collection, not just the choice material.
6. You are selling to a coin retailer, not someone who sells to another dealer. This is so important. Consequently, you will receive the highest possible price.
7. The company you will be dealing with is known and respected throughout the numismatic world. Backed with 13 years of experience in buying, selling, and grading coins, Mike Follett Rare Coins has established itself as a leader in the numismatic fraternity. Your coins will be inspected by either Mike Follett or Don Willis. Mr. Willis, formerly of Marlow, Oklahoma, is also widely known for his knowledge of numismatics. He is a member of the P.N.G., T.N.A., and A.N.A. It is with great pride that we welcome him in our organization in order that we may be better able to serve you.

We are in particular need of the following numismatic items: all choice type material, early bust dollars and quarters in any grade, all key and semi-key coins with a wholesale value of \$10 or more, scarce and rare dates in seated quarters or halves, and all U.S.A. and foreign gold — both rare and common. As we have marketed 19 coins with retail value of over \$25,000 each during the last twelve months, we desperately need rare and unique material.

To conclude, take advantage of our policy. It is a service that thousands of satisfied customers have found profitable and safe. We sincerely believe that we can go further in meeting your individual needs than any other buying program offered today.

NOT ALL COINS ARE WORTH THE PRICE

Most coin dealers and collectors you know want to sell you **genuine, unaltered** collectible coins. But all too often the coins are counterfeit or have been altered to appear to be a rare type. For example, many 1916 dimes have had "D" mintmarks added to increase their value by \$100 to \$500. The same alteration has been made on thousands of 1909-S VDB cents, 1892 and 1893-S dollars, and 1942 over 1 dimes. The targets of the counterfeiters and coin alterers are virtually unlimited.

In 1972 the ANA opened its certification service, which is totally devoted to one purpose: protecting you from buying bad coins. Protect yourself by having ANA Certification Service (ANACS) examine your "key" coins soon after you buy them. If they are good, the coins are **worth more** because you offer a photographic certificate of genuineness with them when you sell them. But if your coins are bad, you have ANA behind you as you request refund on your purchase.

Is ANACS always right? In 98.5% of the cases it is! And if you have **serious** reason to question ANACS's findings, the staff will be happy to re-examine your coin **at no cost to you!**

In a letter or on an ANACS "Request for Certification" form, give the following information:

Your name and address (plus ZIP)

Description of coin(s) to include country, date, denomination, metal, and other data (condition, etc.) which you wish to state.

The value of the coin, if genuine. (Our insurance company **must** have a stated value to determine its liability. This is for your protection as well as ours.)

Enclose a check or money order (payable to ANACS) to cover the costs of authentication, based on your stated value of the coin and on the return postal costs. Compute as follows:

| (1) Coin Value | Service Fee |
|----------------|--------------------|
| \$ 0 — \$150 | \$6.00 |
| 151 — 300 | 9.00 |
| 301 — 500 | 12.00 |
| Over \$500 ... | 3% of stated value |

If an ANA member, state your membership number and deduct 10% of the base fee.

(2) Postage and insurance for return. When you mail your coins to ANACS, add to your remittance the approximate amount of return postage as determined by your post office clerk. ANACS does not challenge return postage fees as long as they are reasonably accurate.

SIMPLE AS A-B-C! Prepare coin for shipment, provide data on you, your coins and their values, and enclose check for service fee (plus return postage and insurance). It's all explained above.

HASTY SELLING VS. QUICK BORROWING

Selling your collection can be profitable if you have enough time to find the best prices. *But a collection sold quickly is seldom sold profitably.*

In any emergency, borrow the money you need at *Edelman's*. Use your collection as collateral and still retain complete ownership.

At *Edelman's*, you can obtain quick confidential loans for any amount up to 80% of the value of your properties — from \$50 to \$50,000 and more. Take as long as 30 months to pay with a repayment plan tailored to your specific needs. Your collection will be safely protected in *Edelman's* air-conditioned vaults until you reclaim it. SILVER BUY DIRECT & SAVE

For "solid" wealth many investors are turning to the "Letcher Eagle." It's ONE TROY OUNCE, PURE SILVER (.999). Each piece is larger than a dollar and certified as to weight and quality. Best of all, this form of silver can be purchased directly from The Letcher Mint at a cost only slightly higher than the New York spot price of silver on the day of purchase. For the first time, individuals as well as dealers can buy this convenient form of Pure Silver at reasonable bulk rates.

Price on a "per Troy Ounce" weight basis in bags, F.O.B. Mint at Lancaster, California:

| | |
|------------------------|-----------------------|
| 1000 to 9999 | at 75c over N.Y. spot |
| 10,000 to 50,000 | at 45c over N.Y. spot |
| over 50,000 | at 27c over N.Y. spot |

Shipment generally will be made in less than a week's time via Air Freight, Rail Express or armored car service.

FUTURE RARITIES

When I look at advertisements of other dealers, offering pages of high-priced rarities (including some items only high-priced!) I feel rather humble.

On the other hand, my specialty of MODERN FOREIGN COINS, with emphasis on NEW AND RECENT ISSUES, is not for the present, but for the future, and I should not apologize for it. What I offer, among others, are some FUTURE RARITIES which you can buy now at LOW PRICES. Why wait until their rarity is recognized and the price matches?

This does require that you use judgment, buy the best condition, and put them away for the long pull. If you do this, you will find yourself with many rarities in your collection, but at low prices. Perhaps you should give it some thought. While thinking about it, why not write for my large stock list and monthly list, available without charge. Dealers, write on letterhead for large wholesale list, to dealers only, please.

WANTED

SWISS 1896-COINS

I need all the Swiss copper & silver coins dated 1896 (except the 20-Rappen) to finish my personal date collection. These coins are VERY RARE. Also VERY VALUABLE. I'm not looking for a bargain. I'm prepared to pay very well for any singles you might have, or I'd be especially delighted to buy a nice set. I'd even pay a finder's fee to anyone who locates a set, that I buy. May I hear from you? Thanks.
